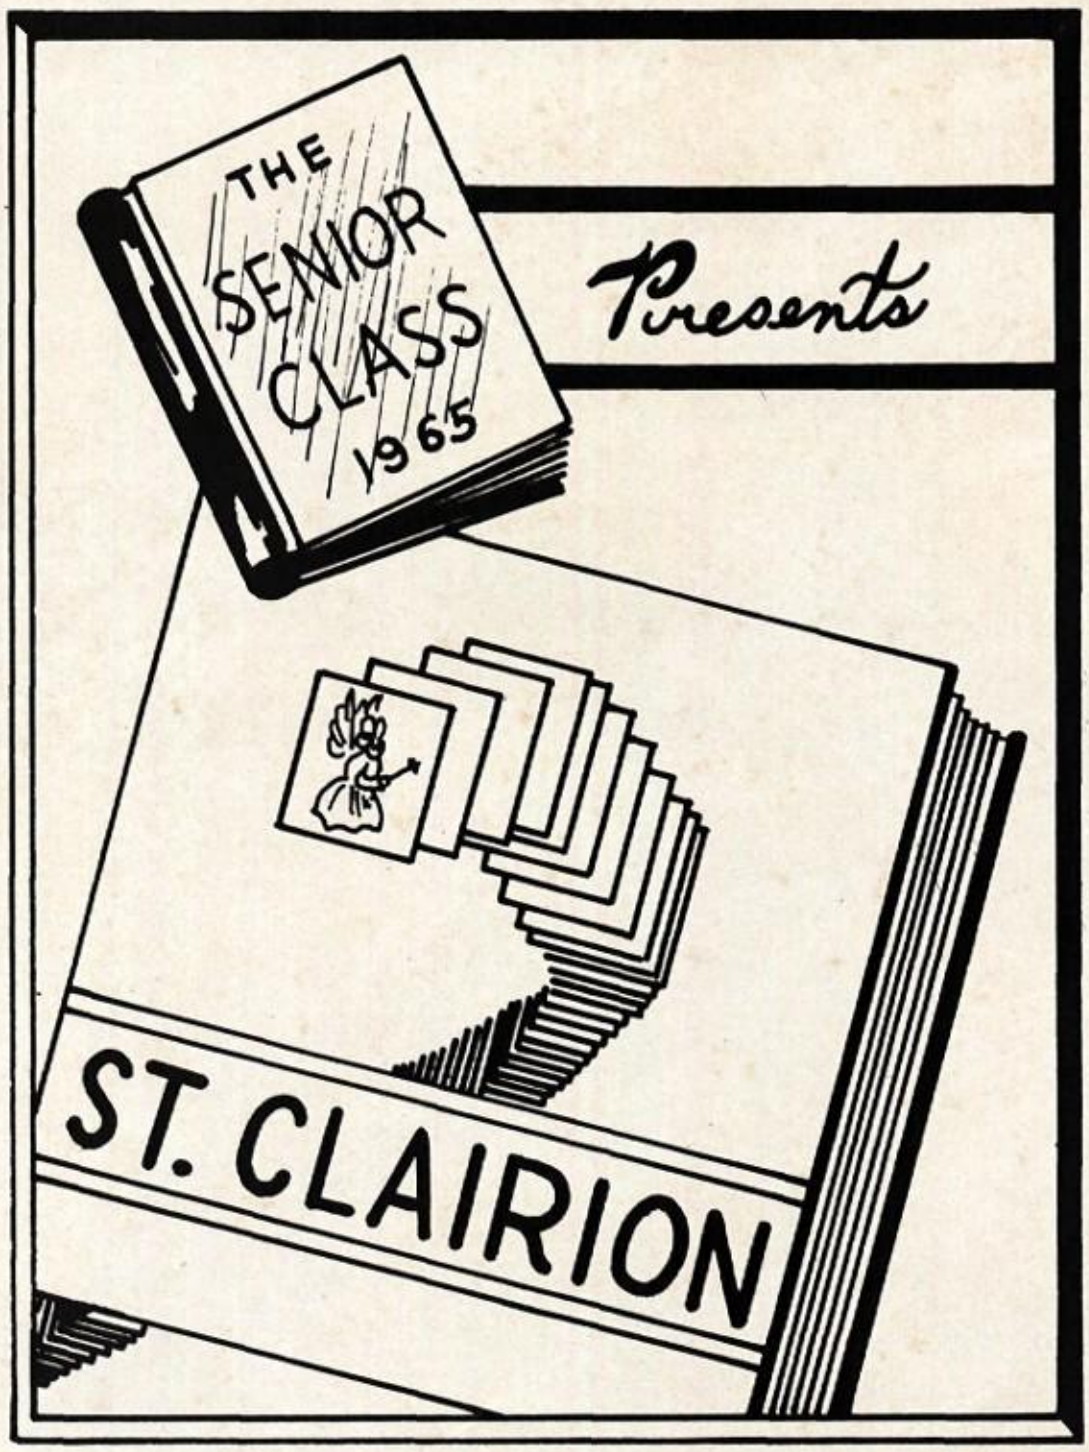
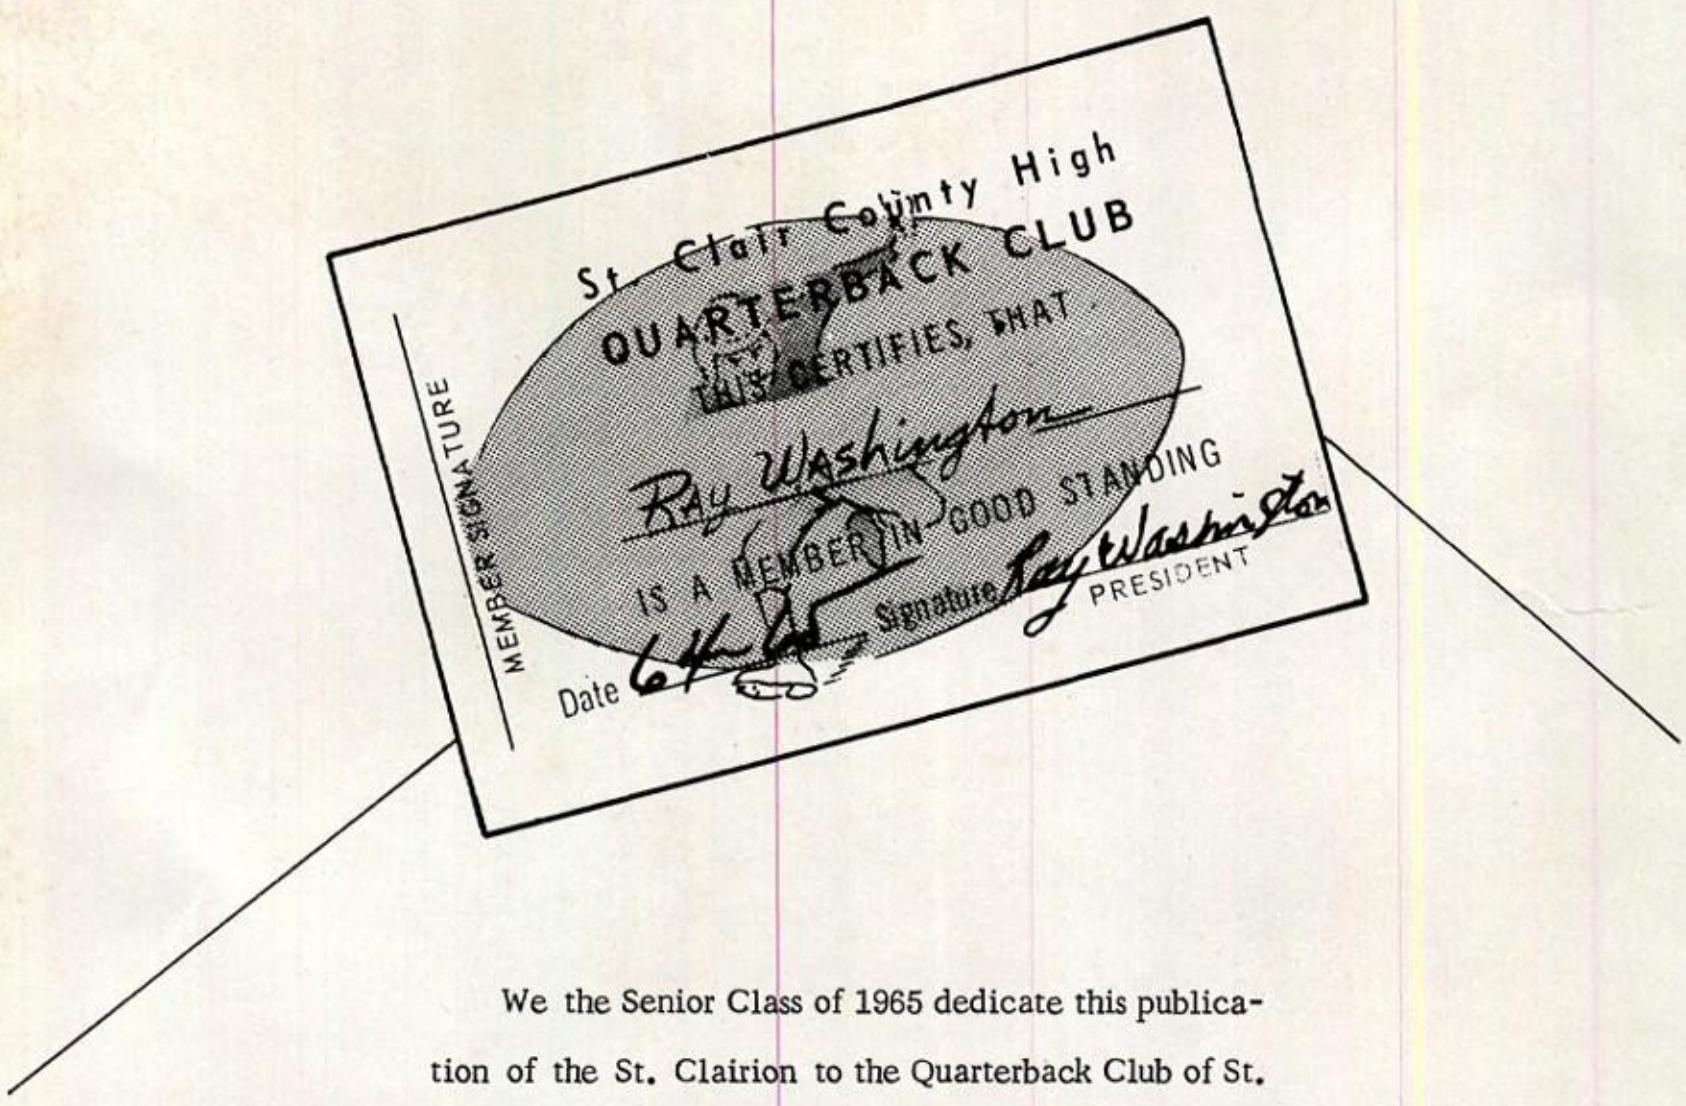
ST. CLAIRION

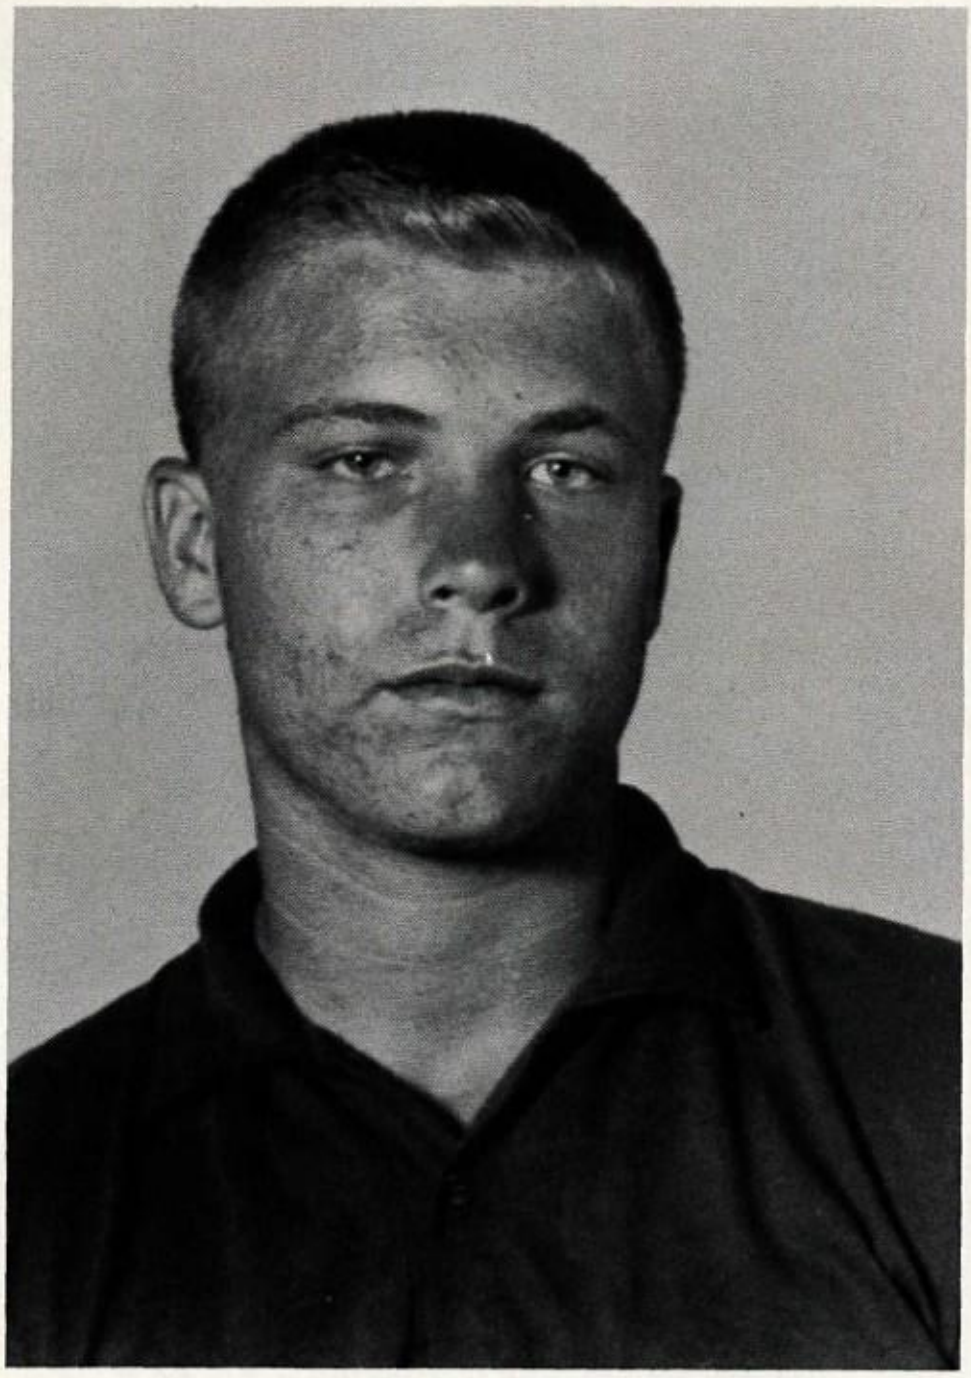


THE
SENIOR
CLASS
1965
Presents
ST. CLAIRION

Dedication

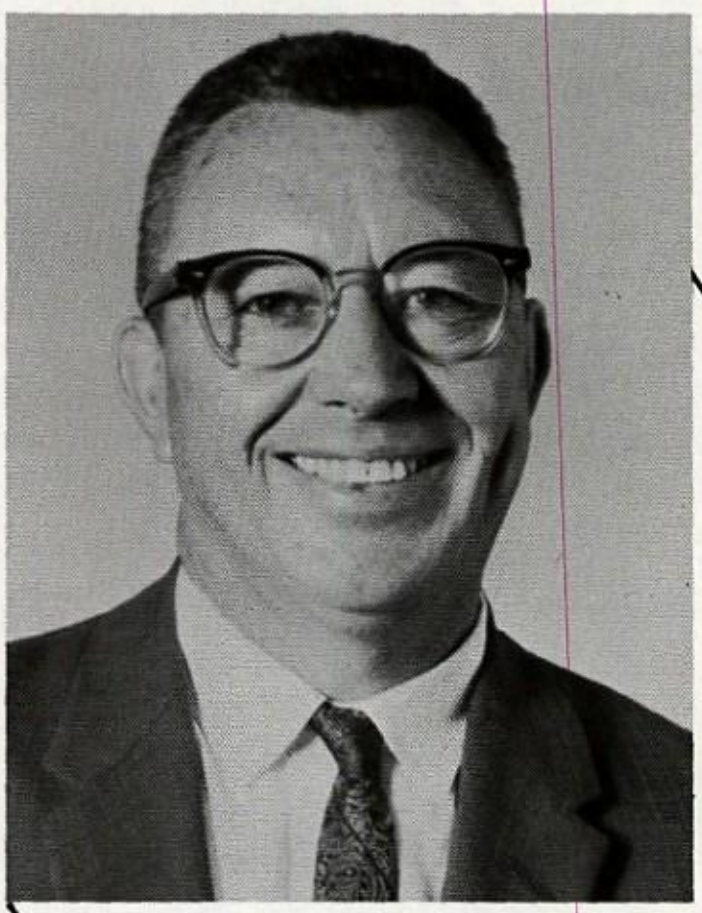


We the Senior Class of 1965 dedicate this publication of the St. Clairion to the Quarterback Club of St. Clair County High School. We do this in appreciation for all the fine work and support they have fostered and put forth this year.



In Memory of Tyne Coupland

Tyne Coupland was a fine person in many ways. He was a boy of honest character, always dependable and kind. He was active in his church. He had the makings of a fine athlete. Tyne Coupland had many friends. We miss Tyne very much, and our memories of him are still dear.



To the Annual Staff, Sponsor, and Senior Class:

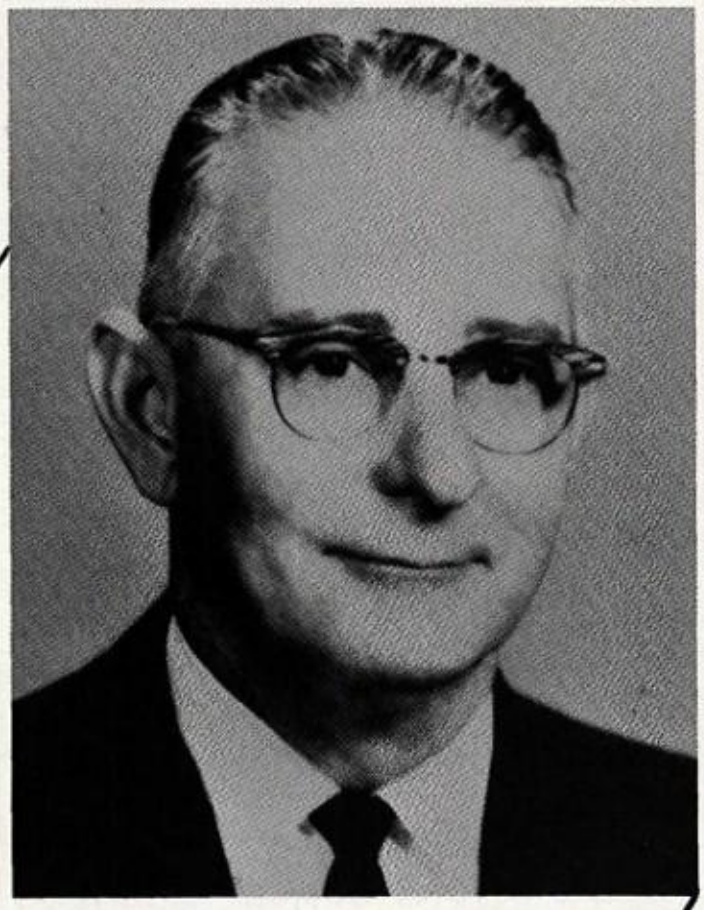
Congratulations and thanks to each of you for the leadership and good work done in the production of the 1965 St. Clairion. I trust that knowledge, principles, and experiences of your high school days have prepared you for the many problems you will face as you take your place in the world of today. Let's hope that this Annual will in the years to come bring back many memories of the good times here at St. Clair County High School.

I challenge each of you to face the future with courage, faith, and determination to serve your fellow man and God to the best of your ability.

My wish for each of you is a long, useful, and happy life.

Sincerely,

D. A. Cox



To the Students and Teachers

I am sure the Annual Staff of St. Clair County High School has worked hard and long to develop an annual that the students, and patrons will be proud of. May I congratulate your Annual Staff and Sponsor for the fine work.

An individual, to live life to the fullest, must have a belief in God, principles to live by based upon God's Holy Word, and confidence in himself. May your life be long and God's mercy and grace be ever with you is my prayer.

Your friend,

O. D. Duran

Senior Class Prophecy

We Predict

Billy Washington will be the first to drive a jet propelled truck from New York to San Francisco in five hours.

Johnny DeShazo, because of his mathematical ability and ability to explain problems, will explain problems that destroy several computers.

David Peters will probably be the first person in history to work 50 years on a mathematics problem.

John Andy Walker may start the smallest political party in history, consisting of one member, himself.

Donny Fulmer, we predict, will be the first martian football quarterback that stops a Rocket Bowl game to hunt for his contact lenses.

Pat McLaughlin will study engineering, and Hubert will study chemistry. They will return to St. Clair County and go into business for themselves. Pat will build them, and Hubert will operate them.

Thomas McMahon will be the only person to join the circus and be the tallest man in history.

Danny Newton will soon tire of green Sting Rays and buy himself a fleet of them; one of every color.

Jimmy McBrayer will soon be able to work out his problems and have only one date each night instead of five.

Jerry Freeman will become a fine Methodist preacher, after giving up his drums.

Jack Gray, we predict, will attend college five years, then pursue his profession, rabbit hunting.

Ricky Dean will go to college, major in chemistry, and return to St. Clair to replace Mr. Yarbrough. He will receive the nickname, Mr. Hyde, the second.

DeWitt Mann will be the only member of the senior class to leave the United States. He will start the next foreign legion.

Toney Carroll will settle down and build a mansion in Margaret - a $500 one with all modern conveniences such as doors, windows, etc.

Brenda Hawkins, after about twenty years, will decide her favorite hair color.

Mary Viera will put her spelling ability to good use, teaching senior high students basic spelling, such as cat, dog, etc.

Gloria Tipton will become a housewife, taking care of all eight children. Her husband came from a rather large family.

Betty Hawkins will be the first girl in history to graduate from business school in twelve and one half years.

Twenty years is a long time, but Carol O'Barr will still be up to her old tricks, trying to catch the same boy - no names mentioned.

Betty Hollis will study trig, first one angle then the other - how to catch him.

Diane Fulmer will, due to her vast experience in credit, become credit manager of a large department store.

Knowing Frankie Newton as we do, we plead the fifth amendment.

Jean Coker will pick out a boy she likes and she might even marry him.

Charlotte Jarrett, after graduation from Howard and becoming a member of the staff, will be replaced for spreading Auburn propaganda.

Faye Glidewell will probably be the first woman to reach the moon. She will be Moon Maid the II.

Audrey Wadsworth, we predict, will get acquainted with everyone, and find someone she likes.

Edna Ruth Gilchrist will learn the secret of growing fruit, and will raise oranges in Alaska.

Liz Murphree will become a concert pianist and give Liberace stiff competition.

Carol Jackson did such a good job selling annuals, that she decided to become a door to door saleslady.

Vicki Cole has had so much practice arguing that she will become a Congresswoman. She would probably make a good President, but somehow women never seem to reach this height. She might though.

Helen Brand will become head of a large transportation company, transporting Gilchrist oranges from Alaska to Florida.

Larry Banks will be the owner of a nationally-known speed shop and will own suped-up hot rods.

Frankie Cobb will become the head of the National Dairy Association.

Billy Edgil will play the drums in a band that will march in Viet Nam.

Charles Hawkins will become a world-famous electronic engineer and will found a space station. He will be unable to get back home.

Jake Hodges will win the Indianapolis 500 five straight times.

In twenty years Troy Leathers will be 38, but he is still in good condition; he will play basketball in the Japanese summer Olympics.

Eugene McGuire will be the star of his own television show titled "The Tall Man."

Talmadge Newton will become the Principal of the Girls' Industrial School.

Truman Sanders will be a great politician who will run for President.

Richard Smith will become the artist for the well-known comic strip - "Andy Gump."

Donald Staggs will become a comedian now addressing the Congressional Tax session.

Bobby Strawbridge will be the owner of a chain of nationally-known super markets.

Jimmy Wilson will be a photographer for a famous magazine - Play Boy.

Marilyn Arends, who will be Mrs. Eugene Poe, is working at the Birmingham Post Office.

Linda Banks will be Mrs. William Banks, a housewife and a mother of two.

Karole Edgil will be Mrs. Bill Edgil; she will write daily letters to Bill while he is marching in Viet Nam.

Cheryl Davis will be Mrs. Gene Davis and a registered nurse at the University Hospital.

Linda Glidewell will become a physician education instructor at the University of Alabama after four years at Jax State.

Brenda Golden will become a private secretary at the leading firm of Hess & Hess.

Peggy Kelly will become a writer of a best-selling book called, My Life at Odenville.

Marilyn Kirkland will marry Maverick, who appears on WBRC each Monday night.

Gayle Martin will be Mrs. Roland Mashburn and will become the mother of four little boys.

Linda Montgomery will own her own grocery store and boarding house.

Mavis Simmons will be Mrs. Don Salser and go on a world cruise with her husband.

Barbara Poe will be employed at Bell-Telephone Co. and will also be a part-time housewife.

Editor's Note: The authors plead insanity!!! (P. M. & H. T.)

Seniors

Donald Staggs, Larry Banks, Eugene McGuire, Johnny DeShazo,
Donny Fulmer, Truman Sanders, Pat McLaughlin

The year is 1965 and the sport is football. This is the first year for us to have a football team and we are very proud of it. We give our thanks to the Quarterback Club and to Mr. Cox for their untiring support of starting and supporting the team.

YEA, SAINTS!

Football Squad
